

PACIFIC ISLANDS INDIGENOUS SCIENCE COMPETITION

Funding available to support projects in the \$10,000 to \$25,000 range

To promote Indigenous science in Hawai'i and the Pacific Islands, we are seeking projects that support:

- Resource Stewardship
- Community Empowerment
- Strengthening Cultural Practices

Projects should center Indigenous methodologies, protocols, and values in research. Project teams should be led by a nonprofit organization in Hawai'i or the U.S. Affiliated Pacific Islands and include at least one land steward or cultural practitioner.

This is a pilot funding opportunity with the intention of eventually building into a regular bi-annual opportunity.
